

	Time	Content
Day 1	08:30 - 10:00	Introduction and Critical appraisal of a systematic review
	10:30 - 11:00	Coffee break
	11:00 - 13:00	Phases of clinical trials Equipoise Research question formulation Group work: Question formulation
	13:00 - 14:00	Lunch
	14:00 - 16:00	Overview of the steps involved in clinical trials The introduction of a clinical trial proposal Recap of the day
Day 2	08:30 - 10:00	Estimating the required sample size for a clinical trial; Group work: sample size estimation
	10:30 - 11:00	Coffee break
	11:00 - 13:00	Randomization Sequence generation Allocation concealment Blinding Follow up and attrition Data management & analysis
	13:00 - 14:00	Lunch
	14:00 - 16:00	Reporting a clinical trial protocol Group work: Using the SPIRIT checklist Recap of the day
Day 3	08:30 - 10:00	Key design variants: Pragmatic vs explanatory Feasibility trials Crossover trials Cluster randomized trials
	10:30 - 11:00	Coffee break
	11:00 - 13:00	Enhancing collaboration in clinical trials Deal-breakers for funders: why did my trial not get funded?
	13:00 - 14:00	Lunch
	14:00 - 16:00	Additional resources for clinical trials Closure and certificates
